

Parent-teen driving agreement

Fill this out together. Save a copy, or print and write by hand. Revisit it as skills grow. Check current state rules first; this plan cannot expand legal driving privileges.

Teen driver

Parent or guardian

Agreement starts

Next review date

1. Our driving limits

State / license stage / official rules we checked

Passengers: who, how many, and when permission is needed

Driving hours / curfew / plan if an activity runs late

Trips or roads allowed / trips to practice together first

Weather or other conditions that mean postponing a drive

2. Every-trip commitments

Teen: Everyone buckled in. Follow road rules and speed limits. Set navigation before moving; put the phone away and park safely before using it. Do not drive impaired or too tired to drive safely. Ask for help when needed.

Parent: Model the same habits, make time for practice, and avoid messaging a teen who is driving. Help arrange a safe ride when needed.

Support. Practice. More freedom.

Talk about what worked, what felt difficult, and what to practice next. Getting home safely comes first. Discuss problems at a calmer time.

3. Help and shared expectations

Safe-ride contact and phone

Backup contact and phone

Agree to ask for help if a drive or ride feels unsafe. A parent or guardian will help arrange a safe way home. Make check-ins after parking, not while driving.

Phone storage / check-ins / optional app sharing: who sees what?

4. How we will review and adjust

When and how we will discuss recent trips

Next privilege to consider, within legal restrictions

Practice or experience to discuss before that change

If a rule is broken: how we will respond and review the plan

Teen: agreed by (type name or sign after printing)

Parent: agreed by (type name or sign after printing)
